energy.me is a licensed Alternative Retail Electricity Supplier (ARES) licensed to supply residential and commercial accounts in the State of Illinois. The Illinois Commerce Commission regulations require each ARES to report certain environmental data each quarter to its customers. This report provides the specified information on fuel mix, emissions and nuclear waste as required by the ICC.

energy.me purchases residual electricity from MISO, which is your regional transmission organization. energy.me does not determine the generation source or fuel mix of the generation source. Each quarter energy.me reports the fuel mix and emissions data as provided by MISO.
